

BEDRIJFSOPLEIDINGEN

Salvage specialist – light salvage

A Salvage specialist - light salvage takes care about the salvaging, transportation and roadside assistance for private and company vehicles with a maximum weight of 3.500 kilogram. Reliable materials are not the only import factor for a professional salvage company to succeed. Successful companies need decent educated employees as well. These employees should have specific knowledge and skills in order to perform as a salvage specialist.

SOMA offers participants the possibility to participate the course Salvage specialist – light salvage, and gain the required theoretical and practical knowledge and skills. Additionally, this course offers the possibility to register 14 hours of refreshing courses for the European Guideline Professional Competence 2003/59. Please be aware of the fact that you notify SOMA on time if the participant should be registered for the European Guideline Professional Competence 2003/59.
