

Safe operation of the forklift

Drivers of fork lift trucks are subject to very strict requirements when it comes to safe and responsible operation of the fork lift truck. It is therefore essential that employees comply with the latest safety requirements and have a safety certificate. This is a refresher course to repeat the basic skills required for safe operation of the fork lift truck. After successfully completing the practical exam, participants receive the safety certificate.

Refresher

The safe operation of the fork lift truck (refresher) course is important in keeping your employees' competences up-to-date.
